## *to safeguard* **Public Health Care** for people, not for profit

**IN THE PROVINCIAL ELECTION  
THIS OCTOBER**

### **WE NEED CLEAR COMMITMENTS TO SAFEGUARD LOCAL HEALTH CARE SERVICES & IMPROVE ACCESS TO CARE**

In polls, health care ranks at the top of the public's agenda. Every political party will promise to fund and improve health care. But lip-service is not enough. Ontarians need clear commitments:

- ✓ Full-service local hospitals safe from fear of service cuts, closed ERs and rural hospital closures
- ✓ A right to access comprehensive chronic care whether a patient is in hospital, a nursing home or home care
- ✓ Action to address severe front-line staffing shortages
- ✓ Improvements and new capacity built in public and non-profit agencies and institutions
